

# Unique English Language Program Gets Refunded

For those in our community who haven't learned to speak English, Lake Worth West Resident Planning Group offers a program to study the language – as well as learn about nutrition and wellness – all at the same time.

Thanks to Florida Blue and the Florida Literacy Coalition, we were recently awarded a \$5,000 grant to provide Healthy ESOL (English for Speakers of Other Languages) to our residents and members for another year. Our Executive Director Rhonda Rogers was recently presented with the check at the 34<sup>th</sup> Annual Florida Literacy Conference.

This isn't a standard ESOL program. As participants learn basic and advanced components of the English language, they also learn about healthy eating and lifestyles. The goal is for students to use the information they learn in the classroom and apply it in a larger context.

Our 25 students also took part in a "project-based" learning initiative. This year, the topic was "legal and illegal drugs – let's talk about them." Instructor Louise Gourd worked with our students to understand the nation's drug abuse epidemic, particularly how people are getting addicted and dying from opioid prescriptions.

In addition, our students went on field trips to a grocery store and dental office and attended our community's annual Community Health Fair.

In all, the 16-week class, from January to April, got students to understand the challenges of learning English but also the challenges of living in the U.S.

"The students were so enthusiastic. They took on many

challenges and they did a great job,” Louise said. “This program is indeed unique.”

## **Summer Camp Set to Start Thanks to Impact 100 Palm Beach County**

Thanks to a \$100,000 grant from Impact 100 Palm Beach County, Lake Worth West Resident Planning Group will offer a free summer camp and afterschool program for middle school youth in our community.

The funding will pay for 40 youth to attend an eight-week camp – from June 11-August 10 at our center at 4730 Maine Street in Lake Worth – that will focus on health and wellness. In addition, once the camp ends, the grant will enable these and other middle school students to gather after-school at our center to complete homework, get tutoring, and be involved in activities close to their home.

These funds will pay for teachers and assistants to supervise the children and emphasize nutrition, academics, and staying focused on the future.

“This funding is a huge accomplishment for us,” said Rhonda Rogers, executive director of Lake Worth West Resident Planning Group. “We’ve had plenty of activities for children in elementary schools and high schools but not for those in middle school. Now we’ll be well-rounded to offer programs to all of the children in our community.”

Again, the new camp is free. Lake Worth West Resident Planning Group will be providing lunch, snacks, and educational and fun fieldtrips. There is a \$50 per child registration fee.
